Emmitt J. McHenry, President of Archura and Founder of Network Solutions International Virginia domain internet registration .com, .net, .org, etc (featured story Black Enterprise "How The \$15 Billion Got Away) will speak on Global Entrepreneurship in the Competitive Landscape and Celebrating our differences. The world is in a crisis of leadership and belief. But we think you have what it takes to fill the gap. But it's Decision Time! Entrepreneurs are the true engine of the economy and the world. It's the Entrepreneur who has the courage and willingness to step up to the challenge.

David L. Steward, Chairman of the Board, founded World Wide Technology in July of 1990 with gross sales in excess of \$3Billion. With over 20 years of experience in the technology industry.

Dr. Neil Seitz, Dean Emeritus, Saint Louis University, John Cook School of Business-Graduate School .

ABOUT THE EVENT

Wake Up, America...Yes Entrepreneurs Can - It's Time To Wake Up! You may not have been born an entrepreneur, and you may have taken yourself out of the game already because you just don't think you have it in you. But look at you - you're holding this book, you're a part of the conversation, and you want more, don't you? You're ready to wake up and begin a new attitude, a new way of living. It's not some cliché goal either - it's the truth.

Right now, we're living in a world where debt and greed have become the self-medication of everyone from Main Street to Wall Street. It has to stop now. You can do better. I believe entrepreneurs are the one who will turn the economy around because the government can't do it. We're ready, willing and eager to move ahead while the folks in government just sit around and talk about change. We're ready to wake up. Listen to me. If you're not motivated to think about choices and consequences, to do our own homework, to invest in yourself, to read more, to pick your partners before the dance.... you might want to stop reading now.
